Functionality and billing

Swisscom provides domestic access numbers for dial-in conferences. Basically participants can reach these numbers from local fixed and local mobile networks of the corresponding country. The participants of a conference only have to pay the local connection charges, the connection to Switzerland will be charged to the conference leader, together with the infrastructure costs. The charges will be itemised on the monthly Swisscom bill for Conferencing Services.

Reservation

If a dial-in conference must be accessible via local access numbers, the conference is supposed to set up accordingly when the reservation is made. Please clearly indicate to the operator taking the reservation that you require local access numbers.

Access cannot be guaranteed

Telecom providers in Switzerland and abroad have specific regulations concerning connections to business and domestic access numbers. Thus, Swisscom cannot guarantee the availability of the numbers above listed in any case. If it is not possible to establish a connection, the chargeable dial-in number **+41 (0)58 262 07 22** can be used at any time.
